Part I RESULTS AND RECOMMENDATIONS

a.   Summary – Objective
What did your data reveal? What did participants learn? Limit to one paragraph.

b.   Summary - Presentation
Make visually appealing graphs, charts, or other visual representations of data/results.

c.   Decisions and Recommendations – Action taken/Closing the loop
What could have been done differently?
Based on collected data, what changes will you make to your program in the future? If any?

d.   Sharing the Results Related to SLOs
In what ways are you telling the story ((e.g., website update, husky sync, brochure, e-newsletter, poster, departmental/program use(retreat, operational adjustments, training) strategic planning, presentations, etc.)) of your data?

Part II METHODOLOGY AND LIMITATION

a. **Project Sample/Participant Overview – Description of Participants**

Number of students in your sample; demographic data of the sample might include these categories: University classification/status, gender, sexual orientation, race, ethnicity, nationality, and disability. You may add additional categories depending on the audience you are working with (e.g., veterans).

b. **Data Collection Timeframe**

Semester, Full year, etc.

c. **Data Collection Methods**

Direct or indirect measures of student learning?
Survey, focus group, reflection paper, observation, etc.

1. SLO i

2. SLO ii

3. SLO iii

d. **Limitations**

Limitations of your SLO Assessment (if any).

Part III APPENDIX
Attach tools that were used in your SLO Assessment.

Part IV DATA
Send an aggregate sample of your SLO Assessment to the Student Affairs TracDat Upload.
